**79th COVID-19 Fatality Reported**

The Joint Information Center was notified that Guam's 79th COVID-19-related fatality occurred at the Guam Memorial Hospital (GMH) at approximately 12:38 p.m. The patient was a 63-year-old male with underlying conditions that were further compounded COVID-19. He was admitted to GMH on October 24 after testing positive at the Guam Regional Medical City (GRMC).

"To those who loved him, please accept our deepest condolences and sympathies. You do not bear this burden alone—you are joined in grief by this island," said Governor Lou Leon Guerrero. "Just as the Thessalonians, I do not want you to be uninformed about those who sleep in death because of this virus. Days of mourning are not set in stone—we have the ability to prevent them. Do what you must, and we will see the end to these difficult times."

**Blu-Med Tent Assembled to Increase GMH Bed Capacity**

The Guam Memorial Hospital (GMH) has increased bed capacity with one Blu-Med Tent and ten Fast Beds to address the increase in hospitalizations resulting from the COVID-19 pandemic. Today, the first of the Blu-Med Tents was assembled outside the GMH Emergency Room by airmen from the Guam National Guard's 254th RED HORSE Squadron. Commonly used for disaster response, the tent has capabilities similar to an expedient field hospital, including negative pressure to maintain a sanitary working environment ideal for treating COVID-19 patients.

The Government of Guam currently has a total of ten Blu-Med Tents ready to deploy as needed. The tents were purchased with Coronavirus Aid, Relief, and Economic Security (CARES) Act funding and arrived earlier this week in anticipation of increased hospitalizations.

**Cumulative Results**

To date, there have been a total of **4,628** officially reported cases of COVID-19 with **79** deaths, **1,883** cases in active isolation and **2,666** not in active isolation.

Of the 79 new cases, 19 cases were identified through contact tracing. Twelve cases have reported recent travel from the United States and were identified in quarantine.
